

**Innovative health & wellness screening  
systems  
for professional and personal use**

# About us

The MEDICALSOFT Company is a manufacturer of a range of innovative equipment based on cutting-edge diagnostic technology and complex program cross-analysis of the data received:

- ▶ Bioimpedance analysis
- ▶ Galvanic skin response
- ▶ Heart rate variability
- ▶ Digital pulse wave analysis.

By using the achievements of science and technology in the field of diagnostics, in combination with our own innovative technology, our team of high-end professionals has identified efficient approaches to developing, manufacturing and selling top quality equipment that meets the challenges of both today and the foreseeable future.

All our devices are rather compact and mobile, which allows to use them in various conditions and situations, as well as ensures maximum comfort for patients during the examination.

Our equipment is used in fitness centers, SPA resorts, and health clinics worldwide.
